## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13 and 18-24 are drawn to a method of manufacturing a liquid crystal device having projections of a plurality of recited area occupying ratios, applying various ranging pressures to substrates, and sealing an injection port for a specified period of time classified in class 349 subclasses: 155, 156, 190, and 192.
- II. Claims 14-17 are drawn to an LCD device in part reciting a pressure applied to the substrates and containing spacer distribution densities classified in at least class 349 subclasses 153 and 155.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method can be used in a liquid crystal device having varied spacer distribution densities or a sealant set for a specified time period or a specific pressure to substrates that prevents substrate warping and defects to the substrates.

Because these inventions are distinct at least for the reasons given above and the search required for Group I is not required for Group II restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeanne A. Di Grazio whose telephone number is (703)305-7009. The examiner can normally be reached on M-F.
